Project Name:	Supply & Installation of Tube Laser Cutting Machine
Project Location:	North Walsham, UK

Bids must be received prior to:

Date:	12 th July 2024
Time:	10:00 Local Time

At the following Tender Submission address:

**PSS Steering & Hydraulics
7 Folgate Road
North Walsham
Norfolk
NR28 0AJ
United Kingdom**

**Phone: +44 (0) 1692 406017
Email: tom.richards@pss.co.uk**

You are invited to submit a tender to supply & install a tube laser cutting machine, meeting the following requirements to PSS Steering & Hydraulics:

- Tube Diameter Range: Ø20mm to Ø200mm
- Loading Capacity: Bundle Loading of tubes up to 6.5m in length
- Unloading Capacity: Up to 1.5m in length
- Maximum Tube Wall: Up to 12mm
- Bevel Cutting: Yes

A requirement of this tender is the capability of the supplier to supply & install the machine on site at PSS Steering & Hydraulics' North Walsham, UK address before 31st December 2024.

Any interested parties must provide the following details alongside their quotation:

- Full technical specifications of the machine proposed
- Details of standard warranty and any extended warranty options available
- Recommended service intervals and current costs for this servicing
- Level of UK based support available for the proposed machine
- Lead time for delivery and installation

Please submit all queries to the above email address. Quotations must be received before 10:00 Local Time on 12th July 2024.

The successful candidate will be chosen based on a combination of factors, including price, lead time, running costs, and ongoing support available after purchase.
